

CT DOCUMENT ENCLOSURE

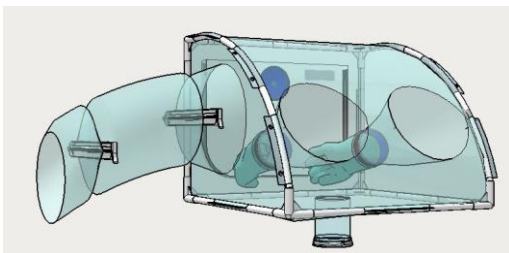

With Reusable Lightweight Frame

Have you been searching for a way to use and protect Documentation, Laptops & Tablets from contamination risk in a pharmaceutical process environment? The CT Document Enclosure is the solution. Ergonomically designed using lightweight FDA compliant materials, it is the perfect answer for protecting Batch Documents and Electronic recordkeeping devices such as Laptops & Tablet PC's.

And Not Just For Documents.

By adding a side chute and bottom chute, the CT Document Enclosure can be used as a charging enclosure, sampling enclosure or mill enclosure.
